#### About caGrid KC Staff

The caGrid Knowledge Center is a joint collaboration among University of Chicago, Argonne National Lab (UC-ANL) and Emory University led by The Ohio State University (OSU) Comprehensive Cancer Center. The caGrid Knowledge Center includes personnel from The Ohio State University Department of Biomedical Informatics, University of Chicago, Argonne National Lab (UC-ANL), and Emory University.

OSU is the lead developer site for the caGrid core infrastructure. Additionally, OSU has extensive experience developing domain-specific extensions and applications using caGrid. UC-ANL has led the development of the Globus Toolkit and is the lead site for the development of the caGrid workflow infrastructure. Emory University specializes in Grid application development using caGrid. OSU, UC-ANL, and Emory all have extensive experience with Grid computing, Grid-enabled applications, and Grid tools and middleware systems.

### **OSU Biomedical Informatics Staff**

- Justin Permar, Knowledge Center Staff, Operations Manager
- Steve Langella, Knowledge Center Co-Director
- Dr. Michael A. Caligiuri, Knowledge Center Co-Director

## **University of Chicago Argonne National Laboratory Staff**

- Rachana Ananthakrishnan, Knowledge Center Staff, Globus Development
- Dr. Ian Foster, Knowledge Center UC-ANL Lead

## **Emory University Staff**

- Dr. Joel Saltz, Knowledge Center Co-Director
- Dr. Tahsin Kurc, Knowledge Center Staff, caBIG? outreach and caGrid expertise
